SWISS DATA DEFENCE

MOUNT10 protects the customers' business activities by storing strategically important data in SWISS FORT KNOX I & II with appropriate software.

SWISS FORT KNOX is certified as ISO 27001: 2013 and BSI TL-03304/NATO (EMP/HPM threats) compliant. MOUNT10 has been providing secure long-term data storage, backup, disaster recovery, and file sharing from two highly secure Swiss data centres since 2005.

Backup is monitored daily by the Service Operation Centre – free support is, of course, included.
