

DATA SHEET

Entra ID Backup

This is Entra ID Backup

With Entra ID Backup, data can be transferred directly to MOUNT10 in the SWISS FORT KNOX — easily, securely, and fully encrypted.

On the CLOUD 2 CLOUD web portal, a connection to Microsoft Entra ID is established. Entra ID content is backed up directly to MOUNT10 on a regular schedule.

SWISS FORT KNOX

Functions and advantages

Functions

Includes users, groups and roles, conditional access policies, admin units and Intune. The scope of functions is continuously expanded. The current status is available on our website.

Simple Data Recovery

Granular recovery provides maximum flexibility. Configuration changes are displayed during the recovery process.

Complete Protection

Entra ID offers comprehensive features. Protect your data in all areas – in combination with CLOUD 2 CLOUD Microsoft 365 Backup.

Web-based backup

No software needs to be installed with Azure VM Data. Thanks to the direct connection between Microsoft Entra ID and MOUNT10, the backup is performed automatically on a daily basis.

SWISS FORT KNOX

The data is stored in encrypted form in the most secure data centre in Europe. The data is stored exclusively in Switzerland.

Service Operation Center (SOC)

MOUNT10 checks the backup process daily and proactively creates logs in case of any anomalies. The SOC is always happy to answer questions 24/7.
