The Backup Solution for
Proxmox Environments
storage

This is Proxmox@MOUNT10

Proxmox@MOUNT10 provides a highly secure and efficient backup solution based on the Proxmox Backup Server. Data is stored exclusively in Switzerland at SWISS FORT KNOX. Using state-of-the-art technologies such as deduplication, compression, and encryption, we ensure maximum security and performance.

Proxmox@MOUNT10 combines the benefits of the Proxmox Backup Server with the security and reliability of MOUNT10. The solution is ideal for companies that want to professionally protect their Proxmox environments.

Functions and advantages

Deduplication & Compression

Saves storage space and reduces costs. You only pay for what you actually use.

End-to-End Encryption

Data is encrypted before transmission and stored in encrypted form. MOUNT10 has no access to your data.

Fast Recovery

Minimizes downtime in case of an emergency. Access your encrypted data in critical situations and restore it reliably.

Easy Integration

Seamless integration into existing Proxmox environments. Backing up Proxmox data has never been this easy.

Service Operations Center

The SOC is available to the customer 24/7 free of charge for support questions.

SWISS FORT KNOX

The data is stored in encrypted form in the most secure data centre in Europe. The data is stored exclusively in Switzerland.
